UKDS

Exodontia in General Practice

Principles and Techniques for predictable outcomes

Aims & Objectives

- Being able to apply the basic principles of exodontia reliably to ensure predictable outcomes;
- To be confident with treatment planning for extraction cases;
- Understanding the role of specific instruments in exodontia;
- Understanding the effective use of the surgical handpiece for difficult extractions;
- Recap Basic suturing techniques.

Dr Yusuf Gadiwalla - Specialist Oral Surgeon

Yusuf graduated in Dentistry from King's College London in 2012. He worked in general practice and then went on to do three years of dental core training. Initially within multiple dental specialties at Guy's Hospital, he then did two years of Maxillofacial Surgery at Queen Elizabeth Hospital Birmingham and Russell's Hall Hospital Dudley. He completed his Oral Surgery specialist training program at Guy's Hospital and King's College Hospital in 2021. Yusuf has published several research papers in the field of Oral Surgery.

Yusuf prefers to be minimally invasive in all oral surgery procedures and particularly enjoys making the dental experience calming and comfortable for all patients. His aim is to provide the ultimate luxury dental experience for everyone who sees him.
